# The Agua Prieta Facility

Just a couple of miles south of the Arizona border in the community of Agua Prieta, Mexico, sits a state-of-the-art Alstyle Apparel & Activewear manufacturing and distribution facility. Within this 800,000 square foot, vertically integrated facility, we are able to knit, dye, finish, cut, sew, warehouse and distribute apparel on a high volume basis. This facility has the capabilities to custom match colors, fulfill special orders, and offers private label/relabel program capabilities.

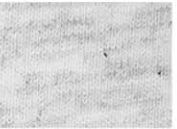

Our Agua Prieta facility is specifically designed to maximize product speed to market. Advanced technology allows us to quickly match demand with availability and respond immediately to demand changes in order to better service customer requirements. The close proximity to the US ensures our ability to offer quick turnaround times, including a standard 6-8 week lead time on custom orders and replenishments.

This facility utilizes natural gas and energy efficient equipment, minimizing our overall environmental impact and significantly reducing electrical consumption. All oils, greases, and packing materials are recycled; in addition, all yarn, cotton, and scrap material is used in aftermarket applications. All products made within this vast facility are comprised of United States cotton.

# The Ultimate Collection

The Ultimate Collection is a tribute to our customers who are looking for a low maintenance, high quality product. This product category is defined by its blended 60/40 Polyester/Cotton fabric. This poly-rich fabric makes the product nearly impossible to shrink or wrinkle. It is best known for its "guy wash" benefits – wash it, dry it, wear it. This durable fabric is perfect for special treatments such as sublimation, dyeing and burn out. Its washability factor is extremely popular with young adults and those with active lifestyles.

# Premium

## **5.5 oz (9.1 oz Canada) 100% soft spun cotton**

Built specifically around a finer, softer fabric, our Premium Weight Collection is constructed from 5.5 oz (9.1 oz Canada) soft spun fabric. This fabric category offers a softer hand, a slightly lighter weight and contemporary silhouettes. Although this fabric is lighter in weight than our Classic weight collection, it still boasts the stellar print quality for which we are known.

The foundation product for this category is our 1701 Surf Tee, a perfect choice for the young and active. This product category services many activewear customers searching for a softer, lighter weight shirt, particularly in the warmer climates. Companion styles for women and children are also available.

## 1701 The Surf Tee

This tee offers a slightly slimmer drape compared to the Classic 1301.

5.5 oz (9.1 oz Canada) soft spun 100% cotton tubular jersey.\* Premium Surf Short Sleeve fit,  $\frac{3}{4}$ " set-in collar, double-needle bottom hem and sleeves, with shoulder-to-shoulder tape. Pre-shrunk to minimize shrinkage. Offered in 28 colors.
